

2009 BEE AND WASP LIST
Surveyed by Dr Thomas Ings

APOIDEA (BEES)

APIDAE

Bombinae

Bombus hortorum
Bombus humilis
Bombus lapidarius
Bombus lucorum
Bombus pascuorum
Bombus pratorum
Bombus terrestris
Bombus vestalis

Apinae

Apis mellifera

COLLETIDAE

Hylaeinae

Hylaeus communis
Hylaeus hyalinatus
Hylaeus pictipes (This is a rare bee and I need to have the identification checked as it is not certain)

ANDRENIDAE

Andreninae

Andrena bicolor
Andrena dorsata
Andrena flavipes
Andrena haemorrhoa
Andrena pilipes – (RDB3 Nationally Scarce)
Andrena scotica
Andrena wilkella

HALICTIDAE

Halictinae

Lasioglossum calceatum
Lasioglossum leucozonium
Lasioglossum morio
Halictus tumulorum

MEGACHILIDAE

Megachilinae

Megachilini

Megachile centuncularis
Megachile ligniseca
Megachile willughbiella
Coelioxys rufescens (cuckoo bee that takes over nests of *Megachile* spp)

Osmiini

Heriades truncorum (RDB3 – very rare)

Hoplitis claviventris

Osmia leaiana

Osmia rufa

ANTHOPHORIDAE

Anthophorinae

Anthophora furcata

Anthophora plumipes

Nomadinae (cuckoo/Nomad bees that take over nests of *Andrena* spp & some *Lasioglossum* spp)

Nomada fabriciana

Nomada flava

Nomada flava/panzeri (males cannot be separated!)

Nomada goodeniana

Nomada marshamella

VESPOIDEA & SPHECOIDEA (WASPS)

VESPIDAE

Eumeninae

Ancistrocerus gazella

Symmorphus gracilis

Vespinae

Vespula vulgaris

SAPYGIDAE

Sapyga clavicornis

Sapyga quinquepunctata

SPHECIDAE

Cerceris rybyensis

Ectemnius continuus

I also caught 2 species of Chrysid wasp (e.g. ruby tailed wasp) – but have no experience of this difficult group – I will have a go at them sometime in the future.
